COUNTRY Hungary	
SUBJECT Underground Installations in Hungary	DATE DISTRIBUTED NO. OF PAGES NO. OF ENCL. 2 SUPPLEMENT TO REPORT #
THIS IS UNEVALUATED INFORMATION	
- The "G XX" (code name of project) installation. <u>For location see area shaded in green on on file map (Mikhalc Sheet, X-15, 47°47'N/20°40'E)</u>. The installation has a railroad connection from Klamstina (I do not know the exact point). Before 23 Oct 55, about two thousand men worked there. The company under contract to make delivery to this project is the Betonépítő Vállalat (Concrete Road-building Company). I know [redacted] that this place will be a rocket (V-2) station. They got the plans, which were marked "Strictly Confidential, Secret Art" from the Military Center in Moscow. They were under the supervision of Soviet officers. [redacted] - Felcsutary - Palanost. <u>For location see area shaded in blue on on file map (Mikhalc Sheet, X-15, 47°35'N/20°41'E)</u>. I don't know anything about this underground factory except the exact location. [redacted] It was an underground factory and a very difficult problem for the Building Company. It was built in 1953-54, and the factory can be seen from the road. Work is going on inside the factory, and I may have heard it is an arms factory. - Sajóházy. <u>For location see area shaded in red on on file map (Mikhalc Sheet, X-15, 48°12'N/20°45'E)</u>. This was a very secret project. It was built in 1952-1956. About two thousand workers were employed there all the time. I heard it is an underground factory. - Balhoss. <u>For location see area shaded in green and red on on file map (Mikhalc Sheet, X-15, 48°10'N/20°35'E)</u>. I only heard of this place and do not know the exact location. It is a large underground factory and was built in 1949-1953 by prisoners. - Jászberény. This is a very large underground factory on the Budapest-Pácoro railroad line and it was built in 1949-1952. I am not certain, but I believe it is a concrete construction with a wall thickness of about one meter. About one thousand workers (prisoners) are employed there. - Tiszaújváros. This factory is not an underground one. It was built in 1954-1956 and about three thousand workers (about one thousand of them prisoners) were employed there. It was built to be a synthetic products as well as an
